Session Coordinator’s Minimum Submittal Requirements for Continuing Education Approval turn in by **February 28th**

The information below is required so that CAEHA can make a complete application for Continuing Education Contact Hours. CAEHA is an approved Accrediting Agency with CDPH to approve and offer REHS Continuing education contact hours.

Please list in one word document:

1. Title of session: **Food Security Panel Discussion**
2. Length of session: **50 minutes, Friday, May 12 from 10:00am – 10:50am**
3. Educational objective: **To increase knowledge about healthy food systems, access to healthy foods, food equity, and identify best practices and existing regulatory barriers associated with food redistribution.**
4. Description of session: **This panel discussion will address key components of how to reduce food waste and identify best practices to safe food distribution. The session will also address the policy objectives from the Governor’s Office of Planning and Research (OPR) and project overview of the Public Health Alliance’s Food Waste Redistribution Project.**

5. Anticipated educational outcomes for session:
 1. **To increase knowledge about healthy food access, food equity and food insecurity challenges in our food system and how they are being met on a national and international scale.**
 2. **To identify best practices and existing regulatory barriers associated with food redistribution, and healthy food access with a health equity lens.**
 3. **To learn about the policy initiatives and strategies of building healthy communities from the Governor's Office of Planning and Research, California Endowment, and Public Health Alliance.**

6. Qualifications and resumes of speakers/presenters:

Dr. Elizabeth Baca is passionate about innovations to foster total health and well-being. She currently serves as the Senior Health Advisor in the Governor's Office of Planning and Research (OPR). She is engaged in innovation in the public sector to foster health through multiple projects including healthy planning, healthy food systems, big data, and public-private partnerships. For healthy planning and food systems she works across sectors to foster collaboration, elevate the connection between health and the built environment, and leads the effort to incorporate health considerations into the planning process to build healthy, resilient communities. A significant part of her work is aligning win-wins for projects that offer co-benefits, particularly with respect to climate mitigation and adaptation efforts. For big data, she is working on projects to link data sets to the planning process. Additionally, she serves as a lead for the Governor's Initiative to Advance Precision Medicine. Through her role in OPR, she is an advisor for the USGBC Building Health Initiative and FS6, a new Food System Accelerator. Dr. Baca also served on the National Academy of Sciences (formally Institute of Medicine) Consensus Committee for Community Based Solutions to Promote Health Equity.

Previously, she served on the General Pediatric Faculty at Stanford Medical School and directed the Community Pediatric and Child Advocacy Rotation. In addition to teaching medical students and residents about the social, economic, and environmental factors that affect health, Dr. Baca was the lead faculty mentor on several projects to increase access to healthy foods, reduce environmental triggers of asthma, increase physical activity opportunities, and improve the built environment.

Dr. Baca studied health policy at Universidad Simon Bolivar in Venezuela. She completed her Masters in Public Administration at Harvard Kennedy School of Government and her Doctorate of Medicine at Harvard Medical School. Dr.

Baca completed her pediatric residency in the Pediatric Leadership for the Underserved (PLUS) program at University of California, San Francisco.

Craig Martinez - (insert picture here)

Craig Martinez, Dr.PH is a program manager for the California Endowment's Healthy Neighborhood Programs. Dr. Martinez will work on policy and systems changes that will result in improved neighborhood environments that support health. Dr. Martinez, who most recently served as a health policy advisor in the Majority Health Policy Office of the Senate Health, Education, Labor & Pensions (HELP) Committee, will help California create neighborhoods that help prevent illness and support health. As health policy advisor in the Majority Health Policy Office of the Senate HELP Committee, Dr. Martinez first served under the Chairmanship of the late Senator Edward M. Kennedy, and subsequently under the Chairmanship of Senator Tom Harkin. His legislative portfolio on the HELP Committee included issues relating to public health, prevention, health disparities, mental health, HIV/ AIDS and public health preparedness.

Dr. Martinez received his Bachelor of Science Degree from Stanford University, and holds both a Master of Public Health Degree and a Doctorate in Public

Health in child and adolescent health and development from the Johns Hopkins Bloomberg School of Public Health. He has also worked in a number of community-based organizations addressing adolescent health concerns in the San Francisco Bay Area including HIV/AIDS, violence prevention, and environmental health. Martinez is a member of the American Public Health Association.

Tracy Delaney -

Tracy Delaney, Ph.D., R.D. is founding director of the Public Health Alliance of Southern California - a regional coalition of nine local health departments whose members have statutory responsibility for the health of 60% of California's population. Her work advances population health and equity through multi-sector initiatives addressing policy, systems and environmental change. She has spearheaded multidisciplinary projects integrating land use and transportation, food systems, climate and water resources and community equity indicators. During her tenure at the County of San Diego, she was Principal Investigator for Centers for Disease Control's (CDC) Communities Putting Prevention to Work grant, the nation's largest federal obesity prevention award, and the CDC's Community Transformation Grant. She holds a doctorate in Nutrition from University of California, Davis, and is a registered dietician and a certified Health Fitness Director with the American College of Sports Medicine. Dr. Delaney was honored with the 2014 Leadership Award by the Southern California Public Health Association. She has a voluntary Clinical Professor faculty appointment with the University of California Department of Family Medicine and Public Health.
